:point_up_2::point_up_2: Follow above steps to install the Trading System to your MT4

Also Send me your MT4 Account number to send the license key files.
(You can see your mt4 acc number, TOP LEFT CORNER of your mt4)

Trading Guide

This trading system is designed to catch the big trend and its dips.

So if you place the order in the beginning of the new trend, you can keep the trade to run for about 50-100 pips
Also you can place orders with the dips to the same trend direction with the Arrow Signal or with the bottom
Histogram.
